

**To the City of Calgary**

The undersigned submit that the Scenic Acres Park lands are fully utilized by the community and surrounding areas with both organized and individual activities. These lands enhance the use, enjoyment and value of Scenic Acres. We therefore oppose any development on Scenic Acres Park lands which will result in any loss of functionality. It was announced in February 2014 that a regional Francophone school was to be constructed at this location. We are not aware of any impact assessment undertaken to determine the suitability of these lands for such development. We support an assessment that engages all stakeholders, including the Scenic Acres community, and leverage knowledge experts is appropriate to identify the most logical Northwest site for the proposed regional Francophone school (the need for which has been documented).

We therefore petition that our municipal, provincial and school officials ‘pause’ the announced regional Francophone school construction at Scenic Acres Park and initiate an objective, transparent (expedited) re-assessment of land options better suited for a regional Francophone school in Northwest Calgary.
